

MOTION:

Discontinue funding for the economics programs

The UAF Faculty Senate observes:

- Our recent history of large general education enrollment declines has resulted in a projected total enrollment starting in 2018 of 100X. This reduced the tuition revenue available to fund the economics programs.

• The UAF Faculty Senate is committed to providing a high quality education for all students and to providing a high quality education for all students.

• The UAF Faculty Senate is committed to providing a high quality education for all students and to providing a high quality education for all students.
